Lebanon

Dear Waafa El Attrache

Hello. Further to our discussions in September during my visit to Beirut with UKTI, I would like to confirm that we would like to establish a close working relationship between your Institution and Bradford College. We would like you to represent Bradford College as a sole recruitment of prospective students with the correct qualifications and English language. The college has with this in mind sent an agreement to you and which you have duly signed and returned.

In addition, we would be happy to cooperate with you on helping to deliver and provide academic support with future Higher National Diploma's (HND's), that you may wish to offer at the new University that you are establishing. I understand that you have been given the approval to move forward with the University and we wish you all the best with this venture. As you can appreciate Bradford College is one of the largest colleges in the UK delivering high quality academic provision to all of our students. We pride our self on the excellent facilities, resources and learning environment we have to meet the expectations of our students. We are happy to establish a good working relationship with AEC (and the new University), with mutual benefit to both Institutions.

If any further information is required, please contact me. We would also be happy to look at an MOU once the new university has started delivering academic programmes.

Other areas that we would be happy to oblige and consider developing and working with AEC is in delivering Corporate Training in arrange of areas that we have previously discussed.

Regards

Adil Mahmood  
Head of Region Central and South Asia
